Notes on determining low score

The THIS WEEK'S LOW SCORE report should be utilized rather than looking at the bottom of the High Score Report. This accounts for the tiebreaker and any incorrect selections.

If a player puts in a number that is not on the lineup sheet, they will be awarded a point.

If there is an incorrect game number and the ticket is valid, they will be awarded a point for any missing games.

For the CONTEST ... if a player misses a week, they do NOT get a score of zero. Instead they are awarded points for low score based on the amount of games. EXAMPLE: If week 3 has 15 games, and a player doesn't make any picks for that week... they are awarded a LOW SCORE of 15 and a HIGH SCORE of 0. This method allows players to not be penalized for the season if they miss a week.

Player Corrections:

Do not try to correct every player. It's better to concentrate on your leaders and should there be a correction, log in to the web, click "Player Corrections", fill out the form.
